

Flexibility, the cornerstone of EURIPIDES 2012 call calendar

Paris, 13th January 2012: as 2012 starts, EURIPIDES is introducing more flexibility in its submission process: four deadlines (2 per call) are now offered to participants for submitting their proposals.

- **Spring 2012 call**

Project Outline (or FPP)	13 February 2012	Full Project Proposal	2 May 2012
--------------------------	------------------	-----------------------	------------

- **Autumn 2012 call**

Project Outline (or FPP)	10 September 2012	Full Project Proposal	15 November 2012
--------------------------	-------------------	-----------------------	------------------

The 2012calls focus on the main EURIPIDES domains: packaging solutions, assembly and interconnection, system integration and smart systems.

Projects proposals should address the Automotive, Aeronautics, Space, Energy, Medtec or Global Security markets.

Applicants are strongly advised to visit the EURIPIDES web site www.euripides-eureka.eu,(menu Calls).

About EURIPIDES: EURIPIDES, the industry driven EUREKA program, covers all technologies related to Interconnection, Packaging and Integration of Smart Systems
